Nissan Elgrand – MPV's & Camper Conversions

Nissan Elgrand

The Nissan Elgrand is a luxury van with its bonnet out the front, offering a high standard on seating for either seven or eight passengers, depending on the version. It drives more like a car than a van (well, like a luxurious Yuppie four-wheel drive, actually - it uses a lot of technology borrowed from the Pathfinder).

The Elgrand has lots of Japanese technology designed to make the occupants feel comfortable and pampered. The front seats swivel like captain's chairs and all passengers have access to air conditioning.

The Elgrand comes with several different engine options, but all have automatic transmission. All versions come with twin airbags and ABS braking as standard.

Fitted with an elevating roof, and one of our high quality conversions, the Nissan Elgrand should be on your short list of 'I want one' camper vans.

At Calder Leisure we have been importing direct from Japan since 1996 (supplying more than 2,250 cars) our resident buyer in Japan inspects all vehicles before purchasing and can source any Regius-Camper of your choice. We pride ourselves in buying only low mileage Grade 4 - 4.5 cars. All in excellent condition with guaranteed mileage certificates issued by BIMTA (The British Motor Trade Association) that guarantee's the mileage to be correct.

At Calder Leisure we always hold 20 plus Japanese Campers in stock.

Please note: Calder Leisure do not purchase low grade, high mileage vehicles at UK Auction Houses.
