Honda StepWGN – MPV's & Camper Conversions

Honda Stepwagon

The Honda Stepwagon is an MPV with great flexibility and a fantastic platform for a camper van conversion.

Starting in 1996 the Stepwagon (or StepWGN) turned the 'family minivan' into a hip and sound concept. With spoilers that actually help to stabilise the ride (as opposed to just looking good), a wide windscreen and a well laid out dash, this is a people carrier/camper van that really drives like a car.

Most of its parts are shared with the popular Honda CRV making availability easy and keeping prices reasonable.

The Stepwagon has a passenger swivel seat, with access from the cab to the rear of the van, where you find an amazingly large space for such a compact vehicle.

At less than 2m in height, with a powerful engine and lots of luxury features, the Honda Stepwagon is a great choice both as an everyday car and converted as a comfortable camper van.

At Calder Leisure we have been importing direct from Japan since 1996 (supplying more than 2,250 cars) our resident buyer in Japan inspects all vehicles before purchasing and can source any Stepwagon-Camper of your choice. We pride ourselves in buying only low mileage Grade 4 - 4.5 cars. All in excellent condition with guaranteed mileage certificates issued by BIMTA (The British Motor Trade Association) that guarantee's the mileage to be correct.

At Calder Leisure we always hold 20 plus Japanese Campers in stock.

Please note: Calder Leisure do not purchase low grade, high mileage vehicles at UK Auction Houses.
